ADEQUATE IT

CROSS CULTURAL

- **PROJECT MANAGEMENT** with unparalleled efficiency. We team up with your people and bring-in interdisciplinary knowledge, local awareness, and synergy of professionals working together for years.
- **CONSULTING** that brings true added value. Management and IT consultants coordinated to ensure that interviews and analysis are done without affecting your productivity.
- **SUPPORT** adequate to fulfill your needs. From infrastructure to system development, from hardware to software; we have the right answer to maximize your existing resources.
- **IT & IS SOLUTIONS** that fulfill local requirements and global business strategy. We provide multi-platform system integration, office automation, Web solutions, and communications through our network of partners.

INFORMATION TECHNOLOGY THAT MAKES SENSE FOR YOUR BUSINESS

Information technology is everywhere. To stay competitive today everyone needs it. But, information technology shouldn't be the main thing... Unless you are in the IT business.

MBS advocates the concept that IT solutions must make sense for your business. IT solutions must be conceived and applied with a managerial approach so you can achieve your business objectives quickly.

The most advanced, most expensive, or most popular may not mean the most adequate for you: We offer the most adequate solution for your needs. MBS engages the right professionals for each circumstance, and applies innovative and cost-effective services and products suited to work in Japan. Our *Progressive Approach*[™] ensures tangible results from start, and all the way up to your ultimate goal.

PROGRESSIVE IT

PROJECT MANAGEMENT

Successful project management relies on the experience, skills, and knowledge of the project manager. We add to that MBS interdisciplinary intelligence, and dynamic supply chain management.

MBS plans and executes better, faster, and cost-effectively.

CONSULTING

MBS consulting services are done by people that understand your business and IT.

Consulting is carried by world-class renowned consulting companies, according to international standards such as COBIT and ITIL.

IT GOVERNANCE

Means IT as competitive advantage for your business.

With experience, know-how, and proven results, we implement IT governance that makes sense to stakeholders. We provide executives with overall information allowing them to define the right strategy for IT; and give control to IT-team to plan, manage, and apply resources efficiently.

BPR

A Business Process Review brings efficiency to your operations and internal controls. Also, IT alone cannot fix all business issues. Therefore, analysis of existing processes and work flows before automating: saves time, money, and effort.

MBS brings-in consultants, and IT people, to carry a BPR with maximum efficiency.

SYSTEM INTEGRATION

MBS helps you build a robust and reliable IT and IS structure with economy, and reduced operational risk.

Minimize the risks of globalization, multi-platform, vendor, and architecture; processes reliant on a myriad of applications, macros, and manual work; domestic and global standards, and foreign languages.

BCP/DRP

Business continuity and disaster recovery must integrate your normal operations. Intelligently incorporating into your normal operations, MBS ensures that you are always ready for the unplanned, and still save money.

Our **Progressive Approach™**, enables you to start minimizing risk with a basic plan to cover what's critical, and expand as business changes.

IT & IS SOLUTIONS

We offer IT solutions for financial institutions, that are suited to investment professionals in Japan.

Back-office, middle office, front office systems.

- Fund accounting
- Risk analysis
- PMS, OMS, EMS

DEVELOPMENT

We have the right partner to develop full-order applications, or semi-order applications based on existing packages.

Large scale development across departments and entities, tactical solutions, or small local or individual applications.

- CRM
- Financial Data
- Accounting, HR
- ERP

PROCUREMENT

MBS adds technical knowledge with experienced negotiation and purchasing in Japan to provide professional procurement services to our clients, bringing best-value-for-the-money.

INFRASTRUCTURE

A well structured, maintained, and documented IT infrastructure and facility must exist to have your information systems running well and uninterrupted.

MBS provides dynamic management ensuring continued suitability and cost-efficiency.

- Telecom lines and contracts
- Carriers, ISP
- Voice and data connections
- Networking
- PBX, telephony
- Racks, cabling
- Audio-visual
- Security systems
- UPS

IT SUPPORT

Our support is meaningful, useful, adequate to your needs and scale. We propose support programs in accordance to what you really can use.

No redundant or overlapping coverage.

- Hardware maintenance
- Software licensing
- Technical support for IT team
- Help desk

SALES

We offer all IT products and services in the market from major manufacturers. MBS resells products and services, or arrange direct transactions from suppliers and your company.

We give you technical advice and available alternatives to enhance decision-making.

- Servers, workstations
- Printers, scanners
- Network devices
- Software license
- Office and IT supplies
